#### 17-413

Software Engineering Reflection
Each student will write an issue-focused
reflection and analysis of some personal
software engineering experience, typically (but
not always) based on the engineering internship
above. This report must be passed by one SCS
faculty member and one SE Ph.D. student, for
both technical content and effective written
communication. Initial course meetings will
cover the reflective, writing, and speaking
process. In later meetings, each student
will present his or her experience through a
30-45 minute talk, which will be evaluated for
communication skills and critical reflective
content. This course is limited to enrollment of
16, and students who are admitted to the minor
program are given first priority.

6

#### **Double Counting Rule**

At most 2 of the courses used to fulfill the minor requirements may be counted towards any other major or minor program.

#### SCS Policies & Procedures

## School of Computer Science (SCS) Academic Standards and Actions

#### **Grading Practices**

Grades given to record academic performance in SCS are detailed under Grading Practices at http://coursecatalog.web.cmu.edu/servicesandoptions/undergraduateacademicregulations/

#### Dean's List

SCS recognizes each semester those undergraduates who have earned outstanding academic records by naming them to the Dean's List. The criterion for such recognition is a quality point average of at least 3.75 while completing a minimum of 36 factorable units and earning no incomplete grades.

#### Academic Actions

In the first year, quality point averages below 1.75 in either semester invoke an academic action. For all subsequent semesters an academic action will be taken if the semester quality point average or the cumulative quality point average (excluding the first year) is below 2.00.

Probation: The action of probation will be taken in the following cases:

- 1. One semester of the first year is below 1.75 QPA;
- The semester QPA of a student in good standing beyond the first year falls below 2.00.

The term of probation is one semester as a full-time student. First year students are no longer on probation at the end of the second semester if the second semester's QPA is 1.75 or above. Students in the third or subsequent semester of study are no longer on probation at the end of one semester if the semester QPA and cumulative QPA (excluding the first year) are 2.00 or above.

**Probation Continued:** A student who has had one semester on probation and is not yet meeting minimum requirements but whose record indicates that the standards are likely to be met at the end of the next semester of study is occasionally continued on probation. This action is normally taken only when a student's semester QPA is above 2.0 but their cumulative QPA is not yet above 2.0.

**Suspension**: A student who does not meet minimum standards at the end of one semester of probation will be suspended:

- A first year student will be suspended if the QPA from each semester is below 1.75.
- A student on probation in the third or subsequent semester of study will be suspended if the semester QPA is below 2.00.

The minimum period of suspension is one academic year (two semesters). At the end of that period a student may return to school (on probation) by:

- receiving permission in writing from the Assistant Dean for Undergraduate Education, or the student's academic advisor,
- 2. completing a Return from Leave form from the HUB

Students who have been suspended or have withdrawn are required to absent themselves from the campus (including residence halls and Greek houses) within a maximum of two days after the action and to remain off the campus for the duration of the time specified. This action includes debarment from part-time or summer courses at the university for the duration of the period of the action. Although suspended students may not hold student jobs, students on academic suspension may, under certain circumstances, have a non-student job with the university. Students on disciplinary or administrative suspension may not.

**Drop:** This is a permanent severance. Students who have been suspended and who fail to meet minimum standards in the semester that they return to school will be dropped.

Students who have been dropped are required to absent themselves from the campus (including residence halls and Greek houses) within a maximum of two days after the action.

The relation indicated above between probation, suspension and drop is nominal. In unusual circumstances, College Council may suspend or drop a student without prior probation.

#### Return from Leave of Absence

SCS undergraduate students returning from a leave of absence are required to submit a Return from Leave of Absence form to the CS Undergraduate Office for approval by the student's academic advisor and assistant dean. In addition, the student must also supply a letter that explains the reason for the leave, the actions that were performed during the leave to prepare the student for a successful return, and a description of the on-campus resources, if required, that would be used by the student in order to increase the likelihood of success. Students returning from a leave are also encouraged to provide two letters of support from people close to the student (e.g. family, friends, clergy, teachers, coaches, others as appropriate). Requests to return are reviewed by the student's academic advisor, assistant dean and student affairs liaison to determine eligibility and any resources that need to be put into place to assist the student upon return. Contact the CS Undergraduate Office for more information.

#### Transfer into SCS

Undergraduate students admitted to colleges at CMU other than SCS and wishing to transfer into SCS should consult with the Assistant Dean for Undergraduate Education during their first year. In general, no undergraduate student will be considered for transfer until after having completed 15-122, 15-150 and at least one 200-level core Computer Science course (15-210, 15-213, or 15-251) with an exceptional grade point average. Additionally, students are expected to have performed well in 21-127. The decision to allow transfer will be made based on availability of space in the student's class and the student's academic performance (in the specified courses and in their courses overall) at the discretion of the Assistant Dean for Undergraduate Education. Students should consult the CS Undergraduate Program office for minimum requirements, transfer request instructions and deadlines.

Procedure for transfer of students from another university into SCS: A student should first apply through the Office of Admission. If the Office of Admission believes the applicant is acceptable, the student's record is sent to SCS for evaluation by the Assistant Dean for Undergraduate Education. Admission is based on seat availability, overall academic performance from the student's current institution, and the application material. It is important to note that extremely few external transfers are admitted to the SCS program at Carnegie Mellon University.

#### **Graduation Requirements**

- A requirement for graduation is the completion of the program specified for a degree with a cumulative quality point average of 2.00 or higher for all courses taken after the first year.
- 2. Students must be recommended for a degree by the faculty of SCS.
- A candidate for the bachelor's degree must complete at the University a minimum of four semesters of full-time study, or the equivalent of parttime study, comprising at least 180 units of course work.
- Students will be required to have met all financial obligations to the university before being awarded a degree.

Modification of Graduation Requirements: A student may seek permission to modify graduation requirements by petition to the SCS College Council.
